

COMPETITION RULES FOR DOUBLE AXE THROWING Germany / Switzerland

Version 2016

Double Axe (6.10 meter or 20 feet) Two-Handed thrown at targets with 5cm/ or 1,96 inch rings
After 10 years of experience and the target of international alignment to the Scandinavian rules, the existing double axe throwers clubs agree to these rules, which are applied to all competitions.

§1

The axe throwing is done with a double-blade axe on a target disc made of wood. Axe and disk are described in detail in figure 1.

§ 2

The distance from the throwing line to the bullseye on the disk is 6.10 meter or 20 feet.

§ 3

The thrower shall not move either foot beyond the throwing line before the axe hits the target. This can be controlled by a line judge or by the target judge. After one warning about this the throwers will be counted as zero.

§ 4

The front axe blade is the blade facing toward the target.

§ 5

Only the front blade of the double axe can mark a score on the target disc. A prerequisite for this is that the axe is firmly inserted into the target disc. The rear axe blade may not be used and should not touch the target disc. Inserted axes with both blades or with the Shaft up in the target disc are invalid.

§ 6

The front axe blade of the axe only needs to touch the line between two target rings to count the higher number of points. If the cutting tip of the axe is so deep can't touch the higher point ring, the number of rings is valued of the axe blade has penetrated. The target judge is allowed to inspect the axe by moving it.

See examples in figure 2

§6.1

In the event of a disagreement between the thrower and the target judge neither should touch the axe in the target as a second judge may wish to inspect it. .

6.2 If a thrower does not agree with the points awarded by the judge he can raise his hand. If the target is not clear, the target judge can select a second judge to consult or to decide again. The new decision of the target judge is a task decision and final.

§6.3

The target judges are there to record definite scores between the lines only. If the hit is not clear between which lines then the thrower will always get the higher points

§ 7

In the case of competitions, each axe throw is assessed by a target judge. The selection of the the target judge is defined by the competitor before the start.

Throwers are only allowed as a target judge in internal club competitions.

§ 8

The winner is the thrower, who receives the most points from the organizer number of throws. The staging mode has to be announced before each competition.

§ 9

In competitions only targets with 5cm/1,96 inch rings are used. Either vertically (wall) or, in the case of target blocks, the target can be mounted slightly obliquely backwards.

§ 10

Competition Classes: The competitor may establish the following classes before the competition:

Ladies, men, seniors (from 65Years), youth (until 18Years), team (= /> 3 thrower = team)

In order for a competition class the status of a class has to be given,

Three competitors, or 3 competitors for teams.

The classes must be defined before the competition.

The competition management is free, to set other prizes, example: Newcomer or fairness prizes.

§ 11

The competition manager is set by the organizer. If the competition of an axe throwing club, the association / club management determines the competition manager. The Competition manager and writer can participate in regional and after consultation the clubs also participate in regional competitions, provided that they do not act as judge.

§ 12

The competition manager assumes the control of the expiration and the responsibility for compliance with the safety regulations. In the case of deficiencies in security, he has to stop the competition until the deficiencies are cleared.

The competition manager has to inform all contestant and the spectators about applicable safety rules.

§ 13

In the case of tie, in the event competition, the number of throws for the run-off, should regulated before the competition.

§ 14

The competition manager, after consulting the organizer, can change the mode in case of bad weather or other unplanned conditions.

§ 15

The organizer decides who is entitled to participate in a competition and has previously announced it in his invitation.

1.) Dimensions of the throwing pit

Distance between the throwing line and the target is 6,10 m or 20 foot

Height to the target middle from Ground 1,50m or 4,92 foot
